**8th National Mayor's Challenge for Water Conservation, April 1 – 30
Joliet joins nationwide challenge to be most "water wise"**

Robert O'Dekirk, Mayor of Joliet, is joining mayors across the country in asking residents to make a long-term commitment to manage water resources more wisely by taking part in the annual Wyland National Mayor's Challenge for Water Conservation — and in return residents can win \$3,000 toward their Home Utility Payments, water saving fixtures, and hundreds of other prizes. Plus, one lucky charity from a winning city will receive a 2019 Toyota Highlander Hybrid to serve the community.

The annual challenge, April 1- 30, is a non-profit national community service campaign that encourages leaders to inspire their residents to make a series of simple pledges at mywaterpledge.com to use water more efficiently, reduce pollution, and save energy. Encouraging water conservation is important now more than ever as Joliet seeks a new water source due to the depletion of the existing groundwater supply. Last year, residents from over 3,800 cities in all 50 U.S. states pledged to reduce their annual consumption of freshwater by 3 billion gallons, reduce waste sent to landfills by 79.9 million pounds, and prevent more than 177,000 pounds of hazardous waste from entering our watersheds. The Challenge goes beyond recent drought issues and looks at the ways our water use will affect the future of our communities — from how we grow food to reducing polluted runoff.

"Join me in taking the My Water Pledge this April. As part of our campaign to Rethink Water I encourage all residents to conserve water, energy and our natural resources," said Mayor O'Dekirk.

To participate, residents go to mywaterpledge.com, and then make a series of online pledges to conserve water on behalf of Joliet. Cities compete in the following population categories: (5,000- 29,999 residents, 30,000-99,999 residents, 100,000-299,999 residents, 300,000-599,999 residents, and 600,000+ residents). Cities with the highest percentage of residents who take the challenge in their population category have a chance to win \$3,000 toward their Home Utility Bills, and hundreds more eco-friendly prizes including Toro Irrigation Smart Controllers, ECOS home cleaning products, and home water fixture retrofits from EcoSystems Inc. In addition, residents can nominate a deserving charity from their city to receive a 2019 Toyota Highlander Hybrid. Students and teachers are encouraged to take part, as well.

The 8th National Mayor's Challenge for Water Conservation is presented by the Wyland Foundation and Toyota, with support from the U.S EPA WaterSense, The Toro Company, National League of Cities, Conserva Irrigation, EcoSystems Inc., and Earth Friendly Products (makers of ECOS).

About the Wyland Foundation

Founded in 1993 by environmental artist Wyland (best known for his series of 100 monumental marine life murals), the Wyland Foundation, a 501c3 non-profit organization dedicated to promoting, protecting, and preserving the world's ocean, waterways, and marine life. The foundation encourages environmental awareness through community events, education programs, and public art projects. www.wylandfoundation.org.

Martin J. Shanahan Jr.
Interim City Manager

The City of Joliet is the third largest city in the state of Illinois and home to over 149,000 residents. Joliet sits 35 miles southwest of Chicago and is easily accessible by auto, train and bus; making it the perfect place to live, work and play. Joliet is constantly striving to promote growth and diversity. For more information on Joliet visit www.cityofjoliet.info or call 815-724-4000. The City of Joliet's Media Releases are always available on our website.
